

The McCrite Family

Who We Are

Family-owned and operated since 1975, the experienced staff at McCrite Plaza have dedicated themselves to providing the top level of service and care to its community of retirees of all different backgrounds, interests, and healthcare needs.

Pat and Judy McCrite-Founders

Commitment to Couples

McCrite Plaza apartments have been creatively designed to support couples with varying needs of care and support. Just because one spouse needs a higher level of care does not mean that there must be separate living arrangements. Quite the opposite. We utilize every resource available to keep couples together.

Luxury Senior Living

Offering a Full Continuum of Senior Care
in Kansas City and Topeka

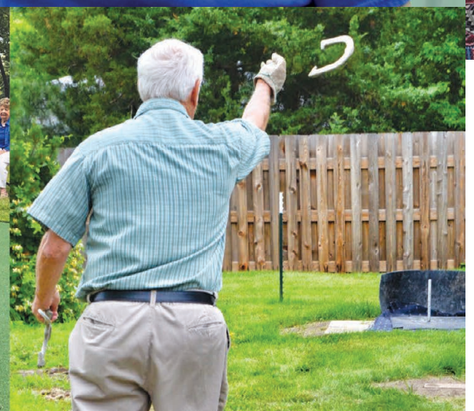

Independent Living

All the Comforts of Home. None of the Worries.

At McCrite Plaza, you'll enjoy the privacy of your own spacious apartment and the freedom to spend your time as you choose. Leave the cleaning, snow shoveling, lawn care, maintenance, upkeep and the rest to us. Our social calendar is filled with a variety of opportunities to get out with new friends and have a good time. Do as much, or as little, as you choose. It's up to you.

Assisted Living

The Support You Need. The Lifestyle You Deserve.

We understand that while you may need a bit of assistance with activities of daily living, such as bathing, dressing, grooming, etc., you still have the desire to live a full, rewarding and engaging life. Our team of professional nurses and certified care staff will deliver healthcare services to you, right in the comfort of your own apartment. You'll get the help you need while continuing to live the active, vibrant lifestyle you cherish.

Assisted Living Plus

Bridging the Gap.

Often, a person may need more physical help than what a traditional assisted living can provide but may not yet be ready for skilled nursing care. McCrite's Assisted Living Plus was created to meet the needs of those requiring care several times throughout the day and night. This often includes regular transfer assistance, escorts to meals and activities, toileting and incontinence care.

Memory Care

Dignified Support. Right at Home.

Our entire staff, at both the Topeka and Briarcliff locations, are continuously trained in memory support to give residents and their families peace of mind at every level of care.

However, in some situations, a person living with memory loss or dementia may need more supervision and security to prevent them from wandering from their home to unsafe conditions or surroundings. Our Memory Care Neighborhoods were created to provide that security, as well as warm, compassionate staff specially trained to enable our residents to live with independence and dignity.

Rehabilitation Services

Healing to Go Home.

Our goal at McCrite Plaza is to provide superior clinical healthcare in order for our guests to gain the maximum benefit from their rehabilitation services. We take a holistic approach to healing by emphasizing physical, mental and emotional health. This methodology has proven to better prepare our residents for a safe and smooth transition home. Additionally, careful and personalized discharge planning is of the utmost importance to prevent rehospitalization.

Long-Term Care

Exceptional Care. Exceptional Comfort.

For seniors facing the challenges associated with advanced age, a prolonged illness or a chronic condition, McCrite Plaza's Long-Term Care delivers 24-hour support and skilled nursing services in warm, comfortable surroundings. Our Long-Term Care is designed to meet the specific needs of the residents as determined by their personal physicians and our nursing staff.
